

The Reality of Wind-Power and Concentrated Solar

The Precise Moment After a Vulture was Fatally Struck

<http://www.youtube.com/watch?v=8NAAzBArYdw>

Bats Being Hit by Turbine-Blades

<http://www.epaw.org/multimedia.php?lang=es&article=b6>

Dwindling Starling Numbers

Two Lone Swallows Sit Briefly on the Wires Where Only a Few Years Ago Thirty to Forty Once Sat

A Concentrated Solar Plant That Uses Mirror-Lenses

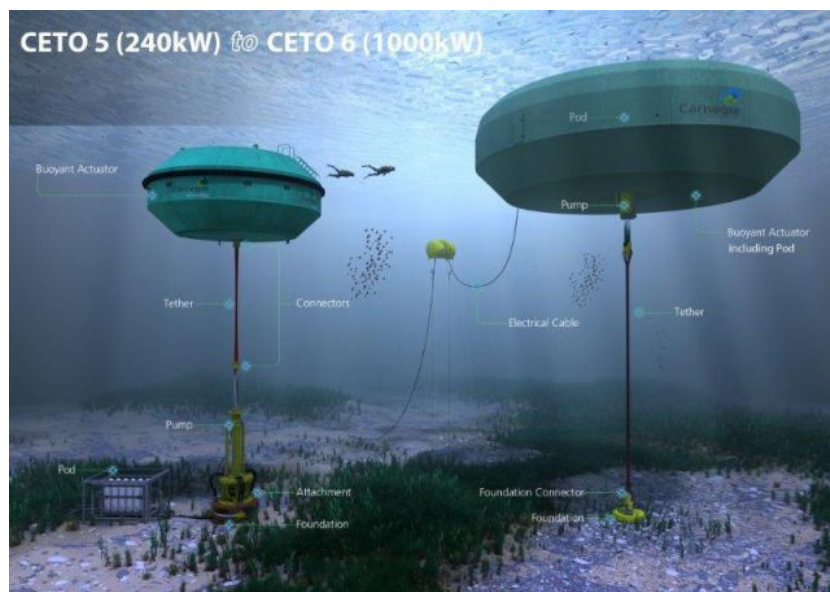

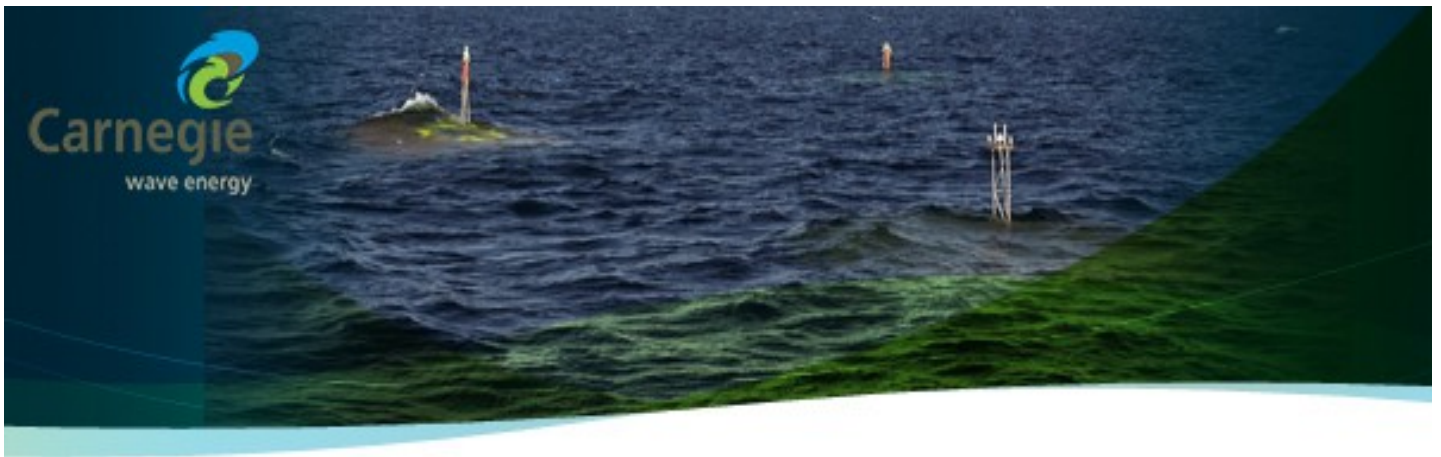

Wings and tail of a Swallow badly singed and rendered flightless.

The fact is all this is so unnecessary; we need **safe** and sustainable green-energy. Please see the advert below. With these **crucially there are no dangerous external turbine blades nor concentrated light beams.**
