West African Caravan 2023

The fight against climate change will be at the heart of the 4th edition of the West African caravan "Right to land, water and peasant agroecology: a common struggle! »

It will be criss-crossing the remotest corners of the 5 itinerary countries to meet communities and authorities in order to make a significant contribution to behavior change and the implementation of policies tailored to the needs of communities to reduce the impacts of climate change.

Objective

Under the banner of the climate emergency, the overall aim of this Edition is to:

- ***Contribute to strengthening the fight against climate change phenomena by raising awareness and promoting peasant agro-ecology as an alternative to false solutions, through advocacy with communities and authorities with a view to guaranteeing food sovereignty in particular.***

Themes

- Climate change;
- The problem of gold washing and the impact of dredging on waterways and health;
- Pastoralism in the face of climate change;
- Environmental protection; Human rights and the fight against the criminalization of community defenders;
- Insecurity and living together;
- Land grabbing;
- Peasant agro-ecology and women's access to land;
- Peasant seeds;
- Food Sovereignty;
- Land governance;
- Housekeepers' issues.

An initiative of the Global Convergence of Land and Water Struggles - West Africa.
