Narrative on preparation and rapporteurship GT CI Bogota - Towards next steps

[NOTES \(Transcription\) en](#) - [INDEX NOTES \(es\)](#)- [Report On Ways Forward \(en\)](#) - [NARRATIVE \(en\)](#)

1 / Origin of this meeting

The idea of this GT CI was born from a visit by Hamouda in Brazil to find some members of the CI-BR (a group of representatives of Brazilian IC member entities) in a context where the IC announced in Morocco in April at the IC Mexico meeting in November 2018 did not take place - It was after a time announced on the IC list, during the online meeting of May 6 <http://openfsm.net/projects/pfsm20/pfsm20-reunion-enlinea-ci-6mayo2019> and then in an explicit mail in the CI list http://openfsm.net/projects/wsfic_fsmci/mexico18-input21

The meeting in Bogotá has three objectives, according to those shared during the meeting of the working group:

- *1/. Strengthen the articulation with Mexico.*
- *2/. Preparation of the next IC meeting in Morocco.*
- *3/. Discussion on the IC Secretariat.*

Hamouda / Rosy

2 / Context of the meeting

As the date approached it became clear that only one person from Mexico was going to attend - And a few days before the meeting it was clarified that Hamouda would not come because of health reasons

The meeting took place on June 29 after the FSMSSS which took place from June 26 to 28 - all participants in this meeting participated in the activities of the FSMSSS. We met on the 27th at the end of the day of FSMSSS participatory workshops and agreed to limit the meeting to one day 29th day at the hotel that housed several of us with following topics : the progress of the preparation fsm XIV Mexico, the progress of the Debate social network project discussions - issues of support to IC secretariat and IC dynamics next IC meeting (including a moment with Hamouda online) etc.

3 / start and agenda of the meeting

- The day began with the presentation from Mexico that was briefly commented on as point A http://openfsm.net/projects/wsfic_fsmci/gtbogota19-input1-en/#A (paragraphs M1 to M13)
 - **1 / Comment on the presentation made by Rosy about the preparation situation in Mexico**(way forward report)
 - *Presentation of Mexico see <http://openfsm.net/projects/pfsm20/pfsm20-insumo48>*
 - Also take into account the report of the workshop-assembly that took place in Mexico on August 10 and 11. **It has information on the WSF XIV date (October 2020 (provisional) instead of the January 2021 date considered in GTCI Bogotá) and reflects current uncertainties about the organization of the proFSM collective** (Organizational culture of assembly type, different from the “facilitator group” configuration, with a closed list of organizations deciding by consensus, used so far in the WSF committees)
- <http://openfsm.net/projects/pfsm20/pfsm20-taller-10y11agosto19/#relatoriaEN>*
- **Then (paragraph M13) a series of points B T1 to T8 were agreed** upon to exchange regarding the Mexican file http://openfsm.net/projects/wsfic_fsmci/gtbogota19-input1-en/#M13final
 - This list of points was respected by also inserting, as agreed, conversation with Hamouda (part C), Debate Social Network (part D), and discussion in relation to the IC (part E and F)

4 / DISCUSSION CHRONICLE

- Part B T1 / Role of the WSF in the Forum process. The importance of the thematic axes. (Take care of the international role) .T2 / Re-launch the political sense of the WSF. (**P1 to P8 - P21 to P32 - P45-46- P87**)http://openfsm.net/projects/wsfic_fsmci/gtbogota19-input1-en/#B

There were initial exchanges on visions of the evolution and current situation of the WSF process and how to “relaunch it”. Periodizations were discussed in the history of the WSF events and it was commented that we now need to combine several facets of the WSF and relaunch methodological creativity towards Alliances and Initiatives (from P1 to P8 and P21 to P32). This was mixed with considerations on the axes (see transcription plan part B sub part T1 / T2 http://openfsm.net/projects/wsfic_fsmci/gtbogota19-input1-en/#plan)

In the index see entries periodization Relying particularly on the paragraphs that mention routings-ways forwards and documents. The following highlights are noted for the formulation of possible routing http://openfsm.net/projects/wsfic_fsmci/gtbogota19-input2/#recomend

- Part C / Within this point there was an interruption to talk to Hamouda (P9 to P20) (http://openfsm.net/projects/wsfic_fsmci/gtbogota19-input1-en/#C
The way forward report shows **2 / Conversation with Hamouda about the format and date of the next IC in Morocco** .

Hamouda did not give certainty that this meeting would happen, as well as the content of it. He said he would report in mid-July about the date of the IC, which could occur between October 10 and 20.

Almost all the participants of the GTCI Bogota expressed the relevance of having a separate IC meeting besides a moment of encounter with the invited “live movements”, focused on the agenda given in **document C** indicated below, The invited people would be “observers) the IC meeting which would be formally separated from a moment (lasting one day?) of "meeting with invited movements". On the other hand, Hamouda spoke of an "open IC". It would remain to detail the modalities of such an "open IC" and how to deal with the Part C agenda in such context, from IC viewpoint.

Hence the approach of the GTCI Bogotá to **the WSF Mexico Collective** , (in view of the uncertainty of date and format, and also to consider budgetary deadlines for financing): **prepare as soon as possible a “Mexico goes!”file** to be send to the IC and that this can give the green light online for the realization of the WSF in Mexico before or without the face-to-face meeting of the IC in Morocco,.

- Topic B-T1 **P21** was resumed to **P32**http://openfsm.net/projects/wsfic_fsmci/gtbogota19-input1-en/#B

Also at this point the thematic axes part was retaken twice **P46- P87)**

The way forward report shows:

http://openfsm.net/projects/wsfic_fsmci/gtbogota19-input3-en

3A / Consensus in the group on the principle of a distinction between “initial process axes” (such as 30?) **And (macro) “event” axes**, in small numbers (5 to 10?), Which would be used in preparation and celebration of the event and formulated at a IC meeting seminar in the second quarter of 2020. (April or June? Depending on the date of the event)

The GTCI Bogotá perceived better the dynamics of construction mobilization WSF XIV in development in Mexico, from now on informally; then more formal after a formal approval of WSF XIV. They are like **30 axes / thematic spaces** and **20 participatory geographical spaces online**, hosting **“online encounters”** with several **“perspectives”, self-organized from participants included in the WSF XIV process** (using a form).

The main perspectives of these encounters from now to the IC Mexico 2020 meeting (**stage B8 below**) are: "Communicate the forum" and its process, Value activities and actions that are done on a day-to-day basis, Advance in contacts to make concrete a perspective of physical participation in the event in CDMX of national and international delegations, Incubate announcement of activities and initiatives that would be opened on the event website by the IC Mexico 2020 meeting.

3E Potential consensus to continue working together, in this GTCI Bogotá, a “methodology for the formulation of macro axes FSM XIV” -

- Part B T3 / Articulation - collective connections, of the movement. § Connect with living processes. P32 to (**P33 to P45**)http://openfsm.net/projects/wsfic_fsmci/gtbogota19-input1-es/#T3

The routing report shows:

http://openfsm.net/projects/wsfic_fsmci/gtbogota19-input3-en

5 / A ICWG group was started to do a “mapping of thematic forums”

This mapping will be with several perspectives (mobilization WSF XIV, participation in the IC, narrative about WSF, methodologies etc ... (initially Armando -Pierre contributors). A status of progress will be presented at the [next IC meeting point C6](#). See index “FSM / thematic forums ”

6 / / The relevance of sharing political contact with living movements was mentioned in GTCI Bogotá

There is data from the ICWG reflection on assembly of struggles 2018) and contact them (see [stage B6](#) and [agenda item C7](#))

Data from 2018 Salvador http://openfsm.net/projects/wsfic_fsmci/salvador17-input1-6a-datos-de-censo-de-luchas-marzo-2018

- Part B T4 / Communication: dissemination, dynamization of the process, participation, involvement. § Effective communication strategy.

This topic was thought to be postponed after the block on the social network of debates but was not taken as a discussion block and was touched in a scattered way http://openfsm.net/projects/wsfic_fsmci/gtbogota19-input1-es/#T4

- Part B - T5 / Methodology: Facilitation, take care of who assumes it (**P36 to P44**) http://openfsm.net/projects/wsfic_fsmci/gtbogota19-input1-en/#T5

The way forward report shows:

3D Identification of several issues on which to continue discussing and clarifying concepts and formulations provided in the FSM XIV- methodological discussion

The index http://openfsm.net/projects/wsfic_fsmci/gtbogota19-input2-en reflects in several "entries" the diversity of concepts, notions and formulations that appeared in this discussion (see the [index in the FSM part XIV terms Agendas Alliance Calendar](#))

1-Subject - **Way to stimulate and build alliances “from below”** ,(P26 P27 P30 P40 P41 P87)

2-Subject- **“ Methodology of initiatives” to reach an “WSF calendar”** that is presented as an **assembly from below of campaign-dates** / initiatives announced and promoted by participants in the process. Strong initiatives stand out “from below” through their dynamic of attracting “expressions of support” from other entities participating in the WSF process. (P6 P24 P35 P36 P40 P41P43 P44)

3-Subject - **“ From WSF calendar to agendas”. Who enunciates and announces an agenda? How to support it? How not to 'speak on behalf of the forum'?** Relationship between the WSF calendar, which is assembly “from below” of action dates of initiatives, and “agendas” enunciated by certain actors that highlight some initiatives included this WSF calendar.(P4 P24 P40 P41 P42 P43 P44 P45)

4-Subject - “ Forum Political Subject **or Forum space-process?**” Which implications in the first 3 points? (ver P26)

- A return to the thematic axes (**P46**)

Lunch interruption

- Part D / The social network debate topic (**P47 to P63**)http://openfsm.net/projects/wsfic_fsmci/gtbogota19-input1-en/#D

The way forward report shows:

4/ Discussion on RSD project “Social Network of Debates FSM / FSM Platform). This discussion allowed some new contributions

- May RSD document;http://openfsm.net/projects/wsfic_fsmci/mexico18-input20
 - January RSD pdf document: http://openfsm.net/projects/wsfic_fsmci/mexico18-input20/plataforma-fsm.pdf
 - Abong confirmed that he had a budget available to finance the realization and presentation in CI Morocco of an “executive project” (paper file) ([see index “RSD” part](#))
- Part B - T6 / How the process continues.Recommendations, regarding Definition of dates. § Calendar of political times. Call, the strategy to build the FSM XIV process (**P64 to P78**)http://openfsm.net/projects/wsfic_fsmci/gtbogota19-input1-en/#T6

The way forward report shows: 3C Consensus on a generic calendar of co-responsibility CI-Collective proFSMXIV See **document B** below from an initial formulation at a meeting http://openfsm.net/projects/wsfic_fsmci/gtbogota19-input1-en/#linea%20

Annex B / 8-step calendar of CoFS-CI Collective Co-responsibilit

- Part B - T7 / Macro event programming: it is too early to move forward (**P79**)http://openfsm.net/projects/wsfic_fsmci/gtbogota19-input1-en/#T7
- Part B T8 / Logistics: Clear communication about physical participation in the event, visa, (**P80-P86**)http://openfsm.net/projects/wsfic_fsmci/gtbogota19-input1-en/#T8
- A final return to the thematic axes: **P87**http://openfsm.net/projects/wsfic_fsmci/gtbogota19-input1-en/#P85 (see point T1)
- Part E / We had time to address Secretariat support, (**P88 to P94**)

The discussion evolved in an exchange on IC tasks, and the relevance of knowing the contributory capacity of member entities to these taskshttp://openfsm.net/projects/wsfic_fsmci/gtbogota19-input1-en/#E - has not given place to routings

- Part F / we conclude with a **proposal of points to be included in the agenda of the Morocco**, in particular on tasks in the IC and contributions for tasks in the IC (**P95 to P103**)http://openfsm.net/projects/wsfic_fsmci/gtbogota19-input1-en/#F

The way forward report shows: **7 / The group found it relevant to evaluate and agree on a series of issues to be included in the IC agenda in Morocco (facilitator IC)**

see and see [index "part CI"](#) >>> [@ annex7C](#)(below) / **Agenda Elements for CI Morocco**

- With a final information about the fsm 2018 rapporteurship (**P104**)

5 / REPORT PROCESS

Participants expressed satisfaction of the quality and agility of discussions during the day

It was agreed that Rosy would do the rapporteurship. It was agreed with Pierre and they opted to make a complete transcript of this day, as had been done for other sessions of IC meetings, which allow to reflect the quality and reality of debates, without obscuring them with a necessarily synthetic summary and which can also be questioned by people that would not find their inputs and words reflected in particular on methodological issues where the discussion is ongoing

The transcript of the discussion videos is here. You can navigate in two ways

- by the planhttp://openfsm.net/projects/wsfic_fsmci/gtbogota19-input1-en/#plan or
- by an index of termshttp://openfsm.net/projects/wsfic_fsmci/gtbogota19-input2

A draft "way forward report " was sent and reviewed in the group that identifies points with a consensus formulation on where stands the discussion and proposal of the formulation of tasks .
